      192.168.2.23

      âPrimary Netmask
      255.255.255.0

                      255.255.255.0
âPrimary Default Gateway
                      192.168.2.1
âHost Name
                      supportergo
âName Server
                      192.168.1.102
âSearch DNS Domain
                      internal.jatheon.com
âSecondary IP Address
                      255.255.255.0
åSecondary Netmask
             <Submit>
                         <Cancel>
```

Fill in your network parameters, hit submit and make sure you can ping the appliance from your network.

You're all set! Please get in touch with Jatheon Support and they will apply the necessary firmware and software upgrade and deploy your appliance into production.

About Jatheon

We founded Jatheon Technologies Inc. in 2004 to empower companies in their efforts to ensure email compliance and facilitate eDiscovery.

Today, we are leaders in the archiving industry, with **5+ billion processed messages** and unique on-premise and cloud archiving and governance solutions. We continue to raise the bar throughout the industry with our latest enterprise-grade **cCore** archiving appliances, a powerful archiving, retrieval and dynamic monitoring software and best-in class tech support, **Jatheon Care**. In 2017, we built **Jatheon CTRL** - a social media and mobile archiving add-on that smoothly integrates with our email archiving software.

It is our mission to ensure security and bring peace of mind to businesses, government agencies, educational, financial and healthcare institutions across the globe. We're headquartered in Toronto, but we serve clients worldwide through our network of global business partners. For more information, please visit www.jatheon.com.
