

Jatheon's cCore appliance family provides an enterprise-grade simple, secure and scalable on-premise solution. "ergo", Jatheon's proprietary best-in-class software captures all incoming, outgoing, and internal messages, checks them against user-defined rules, flags and notifies any violations, indexes and stores the messages for future search and easy retrieval.

DISCOVER DATA ARCHIVING SOLUTIONS THAT SET THE INDUSTRY STANDARD

Comprehensive Search Functions

Jatheon's appliances offer comprehensive search functions either through a secure web based interface or by an integrated Microsoft Outlook Plug-in.

Customized Message Monitoring and Easy Compliance

Companies can monitor messages for company policy violations or regulatory compliance. Users have access to all of their personal data and compliance officers can package information as PST files or export the messages in a Portable Document File (PDF) format.

Advanced Reporting and Exporting

All Jatheon appliances include advanced message reporting, exporting to PDF or PST file formats, the ability to save common searches, searchable audit trail for all activities, LDAP and Active Directory integration, and secure access via a web browser or Outlook Plug-in.

Fully Compatible with All Major Platforms

The appliance will work across many network platforms and email systems

with interfaces available for platforms such as MS Exchange, GroupWise, Lotus Notes and others.

Proprietary Self-healing Storage Technology

Email archives are precious corporate assets. To protect them from potential damage or loss, Jatheon takes advantage of a self-healing storage technology which continuously repairs damaged data caused by deterioration of magnetic disks.

24/7 Proactive System Monitoring and Response

Jatheon's solution includes **The Jatheon Guarantee**, real time remote monitoring services that deliver extensive system status and performance data directly to Jatheon technical support. This allows rapid, proactive response and intervention for any software, hardware or network connectivity issues further reducing the load on your IT team, increasing your organizations' efficiency and productivity and adding to your peace of mind.

Jatheon offers an all-in one comprehensive, cost effective, and easy to deploy archiving appliance that enables companies to not only easily meet compliance regulations, but increase their productivity and efficiency by simplifying archiving, indexing, retrieval and dynamic monitoring of corporate email and messaging data.
